# SYMPOSIUM

Belle van Zuylen zaal, Academiegebouw, Domplein, Utrecht

11:00 Tea / Coffee

11:30 Like Fokkens  
The interplay between genome and network evolution

12:15 John van Dam  
The eukaryotic cilium; building a new organelle  
from pre-existing cellular components.

13:00 Lunch

13:45 Bas Teusink  
Fatal attraction in glycolysis explains temporary  
futile cycling

14:30 Martijn Huynen  
Probing the last eukaryotic ancestor and beyond:  
evolution of the mitochondrion and the cilium.

15:15 Tea/Coffee

16:15 Phd defence Like Fokkens
